1 Biography

My name is Andrew Player and this is a little about myself. I am a Junior studying Computer Science and Mathematics. Originally, I am from Illinois, near Chicago, but now I live in a dry cabin in Fairbanks. My favorite things to do are playing video games and hiking.

There are a few things that I would like to learn in this class. One thing that I would like to learn is how computer ethics have and are influincing actual policy. Another thing is how computer ethics has influenced the ethics of companies. I would also like to learn about the process by which we determine what software is ethical and what isn't in an objective way. [1, 100]

2 The Other Stuff
